## Summary

OLS, Hypothesis testing, SVM, KNN, Regularization, Random forest, XGB, Neural network • Python (sklearn, pandas, numpy, plotly), R (tidyverse, plotly, ggplot2), SQL (SQL Server, Access) • English (C1)

## Experience

### Data Scientist/Analyst (Junior)

Flying Wild Hog

Jan 2022 - Present (7 months +)

### Data Science Assistant

Publicis Groupe

Sep 2021 - Nov 2021 (3 months)

During my work at Publicis Groupe, I worked on an econometric modelling project. My primary responsibilities included data cleaning and processing with the use of Python and R programming languages, but also building custom R tools for econometric analysis.

### QA Tester

Testronic

Jul 2020 - Oct 2020 (4 months)

Detect and report bugs (JIRA). Seek to improve knowledge of testing procedures. Precise write-up (in English) of bugs, flaws and issues.

### QA Tester

Testronic

Feb 2018 - Oct 2018 (9 months)

## Education

### University of Warsaw

Master's degree, Data Science and Business Analytics

2021 - 2023

### University of Warsaw

Bachelor's degree, Informatics and Econometrics

2018 - 2021

Relevant coursework: Econometrics, Linear Algebra, Mathematical Statistics, Time Series, Probability  
Calculus, Finance, R, C++
